This program is designed to provide the skills and knowledge necessary to enter the workforce in a management level position in a wide variety of fields.

Students who have completed or who are in the last semester of coursework needed to complete an Associate in Science or an Associate in Arts degree may apply. The program prerequisites will include an earned Associate in Science degree; students with an earned Associate in Arts degree will be reviewed on a case by case basis. Contact the [BAS Program Specialist](#) for more information.

Refer to the [Bachelor of Applied Science \(BAS\) overview page](#) to find information about admission, graduation, general education and other requirements. Students who need technical electives will work with a bachelor's advisor to determine the courses best suited to their plan of study.

Specializations: This degree has multiple specializations. Student must select one specialization to follow, and will receive the Organizational Management BAS degree upon graduation. While students may take courses from more than one specialization, the specific degree will be awarded only once. Following are the specializations in the BAS Organizational Management degree.
