This certificate is part of the A.S. Transportation and Logistics degree.

The International Freight Transportation certificate is a study of the global environment including the complexities of international business, managing global operations, and the requirements for efficient purchasing, warehousing, and international shipping and transportation requirements.

Graduates are prepared for entry-level positions in the areas of: purchasing, inventory, management, operations management, transportation and distribution, and warehousing.

Refer to the [College Credit Certificate](#) overview page to find information about admission, graduation, general education and other requirements.

Visit the [program page](#) for more information.
